October 09, 2025: On Admissions from Team America, World Police

Elon and Donald, I am taking all of these aggressive vehicles reacting to the webpages that I am viewing as being admissions for **the following plot of treason against the United States of America**:

1. Criminal agents within the United States military and national security apparatus recruit Donald Trump and Elon Musk as operatives to help them carry out a Nazi extortion scheme against the legislative, judicial, and executive branches of the United States of America;
2. Donald Trump and Elon Musk readily agree to help the immoral criminal surveillance state because they are already compromised by the same exact forces that they are now wielding against their 'rivals';
3. Donald Trump and Elon Musk join together to stage a 'light' insurrection that is defensible *yet effective* for the purpose of - not - destroying the government of America, but instead of - CAPTURING - the government of America on behalf of criminals within the US military and national security surveillance state; and
4. Donald and Elon Musk are handsomely rewarded by the criminals within the newly formed Nazi-National-Security Surveillance State in the form of continuous military grade contracts with obscenely high valuations that are paid for by the very same people that the Nazi-National-Security Surveillance State is now using to fund its Neo-Nazi-World Order.

Ladies and Gentlemen of the Jury,

I am presenting these two leaders of the conspiracy for your judgment and I am asking that you return a guilty verdict in favor of We, the People, of the World.

Thank you for your time and attention to this important matter.

Kindest regards,

Chris Noel Carlin,
Counsel for
We, the People, of the World
